Grant Forest Products Englehart Mill Wins Prestigious Ron Baker Award for Excellence in OSB Manufacturing

Markham, Ontario, May 11, 2007 – The 2006 Ron Baker Award for Excellence in OSB Manufacturing was presented to Bob Rosebrugh, Director of R&D at Grant Forest Products on behalf of their Englehart, Ontario mill by Structural Board Association President and CEO, Mark Angelini during the Luncheon of the 2007 SBA Annual Spring Meeting, held in Vancouver, British Columbia, Canada on April 25, 2007. It is the fourth time in a row the Englehart mill has won this prestigious award.

Each year since 1994, SBA has recognized a Member Mill as achieving an outstanding record of excellence during the previous calendar year. Recognition includes a twelve-month lost time accident-free record, a high level of quality, a good production volume and an excellent level of productivity.

The winning mill receives the Ron Baker Award for Excellence in OSB Manufacturing, donated by Mr. Peter Grant Sr. in memory of Ron Baker who as a senior manager of Grant Forest Products Corp. and

as Chairman of SBA, symbolized excellence in management style, people relationships and community endeavour.

Previous winning mills to date have been:

Weyerhaeuser Edson OSB (1994)
Panneaux Malette Timmins (1995)
Grant Forest Products Engelhart (1996)
Northwood Panelboard Bemidji (1997)
Northwood Panelboard Bemidji (1998)
Slocan Forest Products Fort Nelson (1999)
Slocan Forest Products Fort Nelson (2000)
Grant Forest Products Englehart and Timmins (2001)
Martco Limited Partnership LeMoyen (2002)
Grant Forest Products Englehart (2003)
Grant Forest Products Englehart (2004)
Grant Forest Products Englehart (2005)

Founded in 1976, the Structural Board Association represents leading Oriented Strand Board (OSB) mills around the world. The Association is incorporated in Canada and the United States. As the structural wood panel industry's authoritative source for OSB product and technical information, the SBA manages an extensive market and member driven OSB technical development program.
